

OAKE VILLAGE HALL HEALTH AND SAFETY POLICY

Part 1 General Statement of Policy (Oake village hall management committee)

Our policy is to;

Provide healthy and safe conditions, equipment and systems of work for our employees, volunteers, committee members and hirers.

Keep the hall and playground equipment in a safe condition for all users.

Provide such training and information as is necessary to staff, volunteers and hirers.

We intend to comply with all health and safety legislation and to act positively where it can reasonably do so to prevent injury, ill health or any danger arising from its activities and operations.

The management committee considers the promotion of health and safety of those who use its premises, including contractors, to be of great importance. It recognises that the effective prevention of accidents depends as much on a committed attitude of mind to safety as on the operation and maintenance of equipment and safe systems of work. To this end it will seek to encourage employees, committee members and users in the observance of safe working practices.

Employees, hirers and visitors will be expected to recognise that there is a duty on them to comply with the practices set out by the committee, with all the safety requirements set out in the hiring agreement and with safety notices on the premises and to accept responsibility to do everything they can to prevent injury to themselves and others.
